Last Night's Attraction.
Bearing the Chicago trademark, written and produced in that city, and now en route east for exhibition there, "Louisiana Lou," a bright musical comedy, equipped with the most delightful of music and an interesting story, played to a capacity house at the Auditorium theatre on Friday evening.

Individually it presented possibly no character really new to musical comedy, but it was the grace and beauty of the whole that appealed. The story is good, the musical numbers attractive and the comedy espe-

will see many of the large productions presented here.

Mac LaPorte Closes Her Engagement Tonight.

Miss LaPorte and her company will close their five night's engagement at the Auditorium tonight with a production of "When Hearts Are Young," a pleasing comedy drama of intense interest and laugh-provoking comedy. Miss LaPorte has played a very successful engagement here this week and has made many new friends.

The Carnegie Polar Pictures.

Taking Moving Pictures of the wild animals of the far north is undoubtedly the most dangerous work that can be undertaken by an operator of the cinematograph. Climbing dizzy heights on a footing made doubly treacherous because of its covering of ice and snow, floating on bits of ice to get within photographing distance of walrus, seal and sea lions, standing face to face with a full grown polar bear, enduring exposure, cold, hunger and danger of death from freezing, the operator of the northern wilderness has no spare cure. Often the photographer who accompanied the Carnegie Polar expedition, and whose wonderful films are to be shown at the Auditorium Oct. 9 and 10, came to his quarry after a long, tiring, exhausting period of stalking, only to find when he attempted to unlimber his apparatus, that his fingers were so stiff from the cold that he could not man-

FALL POULTRY CARE.

Advice Given by the New Hampshire Agricultural Experiment Station.

Feeds for laying hens in the fall should be of such a nature as to promote and aid molting and bring the fowls into a physical condition conducive to early laying. One of the principal feeds helpful to this end is oil meal, which tends to loosen the old feathers, put a gloss on the new ones and keep the birds healthy. A good molting ration will consist of three pounds of whole or cracked corn, two pounds of wheat, one-half pound of beef scraps, one-half pound of linseed meal and one pound of clover or alfalfa meal. This is sufficient grain for 100 pounds live weight of fowls per day. With this should be given in separate boxes an abundance of grit, oyster shell, charcoal and clean fresh water. Mangels may be given to supply a further amount of succulent food if necessary.

The birds should be given ample yard room and compelled to take plenty of exercise. Scattering grain in the litter in the morning, which necessitates the birds scratching for their meal, will serve as a valuable aid. The custom of giving the birds a wet mash in the morning has now gone completely out of vogue, and with good reason. The consensus of opinion at the present time is that the dry mash is much more desirable. Dry mash fed in hoppers can be handled more easily and at less expense than the wet mash. A dry mash that will give good results is composed of the following:

Wheat bran, two parts by weight; middlings, one part by weight; corn meal, one part by weight; linseed meal, one part by weight; alfalfa or clover meal, one part by weight; beef scraps, one part by weight.

This should be placed in a hopper and kept before the birds all the time. Where the dry mash is provided whole or cracked corn and wheat should be fed in the litter in the morning and at noon.

Cleanliness in the poultry house is at all times important, but especially so during the fall and winter, when the fowls are unable to obtain free range. The droppings should be cleaned frequently and fresh litter supplied. A great factor in establishing sanitary conditions is the application of whitewash.

STORAGE OF CELERY.

Trench Method is One Way of Preserving This Vegetable.

There are many ways of storing celery. Some of the large growers pack in the field, use large crates and send direct to city storage houses. Others have special storage houses on the farm in which the crop may be held until midwinter or even later. Pits, often used by growers who do not make a specialty of this crop.

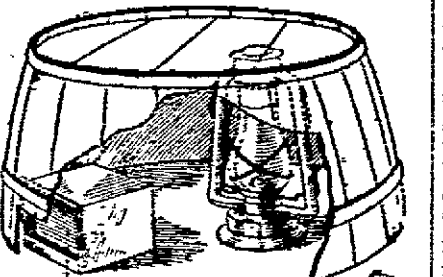

One of the most successful plans is to store in trenches. Storage may be begun after the middle of October and the work should be completed before there is hard freezing weather. In most sections of the north the crop should be stored before the 10th or 15th of November.

The trenches should be about a foot wide and deep enough to receive the plants so that the tops will protrude not more than two or three inches above the top of the trench. The plants are moved to the trenches as promptly as possible after lifting, stood erect and placed as close together as the roots will permit. Some loose soil about the roots in the trench improves conditions for satisfactory storage.

The tops should be free from dew or rain when trenched. Boards which were used in blanching the early crop are nailed together into troughs and placed over the trenched plants to protect them from cold and rain. On warm days stones or blocks should be placed under the boards to provide ventilation. As the weather becomes colder manure, straw or even soil should be thrown over the boards to furnish additional protection. The drainage around the trenches must be good to prevent loss from decay of the stalks.—National Stockman and Farmer.

The farmer may not get rich quick, but when he does get rich he gets rich right.

Warm Water For the Hens.
The method shown in the sketch is used in cold weather to keep the drinking water for the poultry from freezing.

LANTERN AND FOUNTAIN IN HALF BARREL.
[From Popular Mechanics.]

ing. The device consists of a part of a barrel inverted and set over the fountain and a tubular lantern. A small opening is cut in one side of the barrel through which the fowl can reach the water.—Popular Mechanics.

Fertilizing the Orchard.
Barnyard manure is, in general, the best fertilizer for the orchard. It should be applied at the rate of a load to from three to five trees, at least once in three years. The use of commercial fertilizers is hardly advisable, except where careful experiment has demonstrated its value.

"There's always room at the top" doesn't hold good with aviators.

PAPER BAG COOKING

Great System Perfected by M. Soyer, Famous London Chef.

BAKING FAVORITE CAKES.

By Martha McClellan Williams.
Paper bag cooking bakes cakes as much as it does meat or pastry. Please to keep this fact in mind. Also the fact that you should never try to make cakes at bazaar. Instead, take a day or several days off from bridge and shopping and give your whole mind to the matter in hand. Decide first what cakes you care to make, then reckon up what you will need to make them of. Many a good cake has been saddened past all remedy through waiting at the wrong minute for some essential ingredient, overlooked in the general buying.

Never melt butter unless melted butter is specifically called for in your receipt. Set the butter crock outside the refrigerator for several hours before you need its contents—the kitchen temperature will make the butter just right for creaming. Keep eggs cool—they beat light the quicker for it. Always add a tiny pinch of salt to the whites in beginning to froth them—it makes the frosting easier and improves the taste. Eggs, it is needless to say, must be above suspicion. Sift flour and set it where it will get warm and dry without scorching, then sift it again before using it. Measure it after the second sifting, and if baking powder or soda and cream tartar are to be put in it, add them to the measured bulk, and sift a third time.

Cake must be beaten well, and thoroughly, if you want it firm, yet light, and of fine, close texture. Sweet milk helps to this fine texture. Sour milk or cream, contrarily, tends to a coarse, bubbly grain.

Prepare fruit over night, if possible, washing and drying it well.

Two such flavors as lemon and vanilla, vanilla and rose-water, or rose-water and almond, give to cake a tang as delicious as it is unusual. A spoonful of brandy or even a good corn whiskey, beaten well through the cake just before the frosting—which should be put in the very last thing—will make the cake lighter, better colored, and of better keeping quality.

Sift spices through part of the flour, adding the spiced flour alternately with what is left plain. Always sift sugar, and more than once if it is clumpy. Warming it gently helps to make light cake. It should be sifted afresh after the warming.

As I have said, paper bag cooking bakes cakes as much as it does meat or pastry. It can be done in the bags, but I advise using in conjunction with the bags either paper soufflé-cases or very thin tin moulds, square, oblong, or round, or cases made from the bags themselves.

To make a square paper-bag mould, split in half a bag of the largest size, crease each half gently all round about three inches from the cut edges, and fold up each corner neatly, clipping the folds firmly with two or even three clips. Brush over this mould liberally with soft butter, taking care to cover every fiber. Fill three parts with cake batter, then slip the loaded mould inside a big greased bag which rests upon a wire trivet. Seal the outer bag, taking care that it does not press down the empty upper edges of the mould inside, prick two or three small holes in its upper side, and set the trivet on the broiler in a very hot oven. Put on the shelf above it a shallow pan filled half way with boiling water, and on the floor underneath a pan with a little cold water. Close the oven door and leave for ten minutes. Take out the water pans then, and after two or three minutes slack heat one-half and finish baking. The time will, of course, depend on the size and kind of cake.

Paper bag baking is a little quicker, and ever so much more certain.

Small patty pans, or fancy-shaped muffin moulds, filled with cake batter and baked inside bags, will afford an almost infinite variety of ornamented good things.

SWEETS FOR THE SWEET.

By Nicolas Soyer, Chef of Brooks' Club, London.

Beignets à la Portugaise: Wash well six ounces of Carolina rice, place it in a clean stew pan, adding four ounces of powdered sugar, two ounces of butter, half a stick of cinnamon and a strip of lemon peel or a very little grated rind of lemon. Allow the butter to melt, shaking the pan to avoid burning, then add a pint of milk. Cover closely and bring gently to the boil. Then draw the pan to the side of the fire and simmer slowly for rather more than a quarter of an hour, when the rice should have absorbed all the milk and be perfectly tender. Withdraw the pan from the fire and allow the mixture to cool a little. Then add the well-beaten yolks of three eggs and the whites, whisked to a firm froth with a tiny pinch of salt and a little lemon juice. Mix lightly, but very thoroughly, and then form into balls about the size of a small tangerine. Make an aperture in each as carefully as possible, and insert a small spoonful of either apricot jam or marmalade in the middle. Close up neatly, then dip in egg and breadcrumbs. Have ready a well-greased bag, put in the beignets, and cook for fifteen minutes. Take out and serve at once.

AN OBJECT LESSON.

"People are careless," said the man with the big firecracker in his hand. "If they would exercise common sense we would hear of less accidents on the Fourth."

He touched the lighted end of his cigar to the fuse, and resumed: "There is no danger in the use of fireworks if those who handle them think of the risk they are running. I have shot off firecrackers since I was old enough to strike a match, and never even got a finger burned."

A smile of recollection came upon his face, and he dropped his hand idly to his side while he said:

"I remember once when my Uncle Thomas came to our house on the Fourth. I was a small boy at the time, but I recall distinctly that we had an old toy cannon, and Uncle Thomas insisted upon telling us boys how to fire it. Well, sir, he—"

Whack! Bang! Wow!

Without apologizing for his haste, the man who had held the firecracker ran to a drug store, leaving his friend musing upon the necessity of being careful.

WHY HE DID IT.

King Stranger—My dear little boy, why do you tie those firecrackers to the tail of that dog?

Little Boy—Aw, he's an English mastiff.

HE KNEW IT.

The patriotic crowd, being enthused by the exercises began singing the "Star-Spangled Banner." Soon everybody was singing "tum to te tum," as is usual, except one man who lustily sang every word of the song to the end.

Later it was learned that he was a foreigner.

An Appreciation.

We wish to thank our congressmen for a nifty package of garden seeds sent from Washington for our special use. It is nice to be thus remembered by one who is far away in a strange land, and it beats a picture postcard sent to a package of congressional garden seeds which appeals. We had them cooked up for breakfast this morning, and while they were fair, it must be remembered, that congress has gone Democratic recently, and the flavor of the garden seeds is bound to be somewhat more biting and pessimistic than formerly, but we thank the thoughtful congressman just the same. We have eaten his garden seeds several years, and they are all right.

Customs of Other Days.

Drinking tricks figured in diplomacy in the time of Henry VIII. Mrs. Henry Cust quotes the king's challenge to Hubertus, the representative of the Palgrave Frederick. He sent for two huge goblets, filled with wine and beer respectively, and gave the envoy his choice for a "drinking out" test. In vain Hubertus pleaded that his master had actually instituted a company of the golden ring to put down such contests, any member who broke the prohibition to lose his ring and give \$1 to the poor. Henry, anxious to prove that the Englishman was the better man, promised to find the forfeits himself and drank his beer at a gulp, while it took the German four gulps to account for the wine.

Domestic Science.

The Chicago woman who advertised for a domestic, and offered a weekly auto ride as one of the inducements, got but one reply. She was requested to send a photograph of the chauffeur so that it could be determined whether the place was as attractive as desired. As the lady's husband himself drives the car the photograph was not sent, and there is search in other directions for a domestic. It would seem from this that the service must have more than ordinary inducements these days, and then doesn't suit some.

Mother's Diagnosis.

Speaking of mothers, a Squirrel Hill matron is an object of considerable solicitude just now on the part of a couple of young Pittsburghers, although she doesn't know it. The young man called, and this was the first question he asked:

"Have you spoken of our love to your mother as yet?"

The girl shook her head.

"Not as yet," she whispered.

"Has she noticed nothing?"

"She has noticed that I've been acting queerly of late, but she thinks it's just biliousness."—Pittsburgh Post.

EX-MAYOR SMITH DIES IN INDIANA AT AGE OF 84

The Advocate received a message from West Lafayette, Ind., Saturday, announcing the death of Moses P. Smith, former mayor of Newark and at one time associated with Mr. Frederick Koehndorfer in the publication of a semi-weekly newspaper in Newark.

For years prior to the time he was mayor of Newark, in the early '80s, Mr. Smith was a B. & O. engineer.

For the past four years Mr. Smith has been making his home with his son, Albert Smith, who is a professor of engineering in Purdue University. Mr. Smith was 84 years of age at the time of his death and was bed-ridden for two years. He was born in Bath, N. H. Burial is to take place in West Lafayette.

Three children survive, Albert, Perley of Chicago, and Ellen of Walla Walla, Wash.

HOW TO VOTE THE JUDICIAL TICKET

Under the new non-partisan Judicial Ticket law, the candidates for the various Judicial offices will appear on a separate ticket, with nothing to designate their political position. The following explanation of the ticket is given in order that Democratic voters and friends of the Democratic candidates may know how to mark their ballots. Those marked with the X are the Democratic nominees, and for these Democratic voters will vote. For convenience, the voter should cut this out and keep it.

"No Temere" Decree.

The "No Temere" decree, so called from its first two words in Latin ("Let no one rashly"), is the official declaration of the bishop of Rome, to all Roman Catholics the world over, calling upon them to abstain from internarrations with those of other creeds, and declaring that Roman Catholics must be obedient to the rules of their church regarding such marriages, and their solemnization by their regular clergy.

Saved By His Wife.

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Brainard, Vt., is of that kind. "She insisted on my using Dr. King's New Discovery," writes Dr. F., "for a dreadful cough, when I was so weak my friends all thought I had only a short time to live, and it completely cured me." A quick cure for coughs and colds. It's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quinsy, tonsillitis, hemorrhages. THE TAXICAB OF THE STONE AGE AND TODAY

CIRCUIT COURT REVERSES THE AL GARD CASE

City Loses After Winning Case in Common Pleas Court—News of County Offices.

In the case of Al. A. Gard, plaintiff in error, vs. the State of Ohio, defendant in error, the circuit court reversed the holding of ex-Mayor Ankele, the court finding that the proof did not sustain the charge, Gard was arrested upon a charge of being found in a state of intoxication and was convicted. The case was taken to the circuit court for review of the judgment of the mayor upon the trial. The statute under which the defendant was prosecuted provides that "Whoever is found in a state of intoxication," etc. The circuit court held that this section means, by implication, that the accused, in order to be guilty of the offense charged, had lost control either of his faculties or possibly his muscles, and that the evidence in the case was insufficient to convict. The court held that the judgment of conviction of Gard before the mayor was against the weight of the evidence, reversed the judgment and discharged the defendant.

Common Pleas Court.
In the case of Columbus S. Hall vs. Ida E. Tompkins et al. J. W. Horner was appointed guardian ad litem for minor defendants. A suit in foreclosure.

Harry D. Baker, administrator of the estate of Harriet M. Coffman, deceased, vs. Walter C. Coffman et al., a suit to sell lands to pay debts of the estate and to declare a trust terminated; decree and order of sale.

On Monday morning the court will take up the assignment of jury cases, for which an assignment has been made covering several weeks.

Petition in Error.

A petition in error has been filed in circuit court in the matter of Byron B. Ashbrook vs. Rosa Joseph in which the plaintiff in error asks a reversal of the judgment recovered by the defendant in error in the April term of common pleas court. The petition is based on thirteen grounds and is filed by Attorneys Eugene Moore and Smythe and Smythe.

Final Account Filed.

In the cases of Oliver C. Stone et al. vs. Ann E. Stone et al. and John

Dickinson vs. Ann E. Stone et al. Stephen Nessley, trustee, has filed his second and final accounts.

Admitted to Probate.

The will of Marietta Brumbach, deceased, was admitted to probate Friday. Arthur M. Brumbach, of Granville, has qualified as executor with a bond of \$24,000.

Juvenile Court.

Charles Henry, a boy of 19 years, was up before Judge Hunter in juvenile court Thursday, charged with contributing to the delinquency of Bernadette Kean, a girl of 14 years. The prisoner was represented by Attorney J. F. Lingafelter.

Extenuating circumstances convinced the court that the charge against the boy was more severe than the facts warranted, and a jail sentence was imposed and suspended on the payment of the costs.

ADVANCEMENT OF WM R. EVANS A NEWARK MAN

Mr. William R. Evans, a Newark young man who has made rapid rise in the business world, has just been elected vice president and general sales agent of the Lehigh Valley Coal & Sales Company, New York City, having been elected to fill the vacancy caused by the death of the president, Mr. John W. Skeele. This is a \$6,000,000 corporation, headquarters at 90 West street, New York City.

Mr. Evans, who is a brother of David J. Evans, who has made a success of business in Chicago, being located in the Railway Exchange building, was born in Newark in 1874, and lived in Hudson avenue, near Shields street, and was educated in the North Fourth street public school and in the high school of this city. For about a year he was employed in O. G. King's shoe store, but went to Chicago in 1892 to take a position with his brother John, at the Wells & French Company's car building shops. During the business depression of 1893 the car company suspended operations, but Mr. Evans was fortunate in securing a position in the Chicago office of the Lehigh Valley Coal Company in October of 1893. He was transferred to the New York offices in 1904. About two years ago Mr. Evans was appointed assistant to the vice president and general sales agent, and upon the organization of the Lehigh Valley Coal Company was appointed general sales agent in March of 1912, and a few days ago was elected vice president and general sales agent of this great corporation. Mr. Evans was married to Miss Blanch Frisbie of Chicago, and has four children. Mr. Evans and his family live in Bloomfield, N. J. Many old-time friends in this city will be very glad to learn of Mr. Evans' rapid advancement.

ANNUAL ELECTION OF FAIR BOARD OCCURS OCT. 26

The annual election of the directors of the Licking County Agricultural Society is scheduled for Saturday, October 26th, and according to the constitution the election must be held between the hours of 9 a. m. and 4 p. m.

The directors are twelve in number and are elected for terms of three years, one third of the membership retiring each year. The four directors who retire this year are J. F. Lock, J. C. Morrison, A. D. Seward and W. J. Sharp. Another member must be elected at this time also on account of the death of William Courson, whose term would have expired in 1915. In case of the death of a director, the constitution provides that the board may make an appointment until the next election, at which time the society elects a man to fill the unexpired term. C. C. Cooperider was appointed by the board at the time of Mr. Courson's death.

Membership in the society is open to residents of Licking county on a payment of \$1, and each member has one vote in the election of the directors.

HEALTH BOARD EXPERIMENTS ON LIVE MONKEYS

Columbus, Oct. 5.—Mystery surrounding a locked door to a room occupied by the state's board of health was solved today. The room contained four live rhesus monkeys imported from Africa and Secretary Eugene McCampben of the board is experimenting on them in an attempt to find the cause and cure for infantile paralysis. Dr. McCampben says there are between 300 and 400 cases of infantile paralysis in Ohio. This species of monkey was selected because it is more like a human baby than any other animal.

TOOK TABLETS FROM THE WRECK; DOCTORS BUSY

Mt. Vernon, Oct. 5.—Several hundred children in this city are seriously ill today as a result of a B. and O. freight train wreck here yesterday. A large shipment of medicine in tablet form was scattered from one of the cars and the children filled their pockets. The tablets found their way into the hands of nearly every child in the city. Today practically every physician in the city was busy treating the children. Several of them are said to be seriously ill.

SERVIAN ARMY IS MOBILIZING

London, Oct. 5.—The situation in the Balkans has not undergone any changes today and news from the various sections is very meager. The word from the throne at the opening of the extraordinary session of the Servian and Bulgarian parliaments however shows there has been no cessation in the preparation for war. The Servian army it is expected will be fully mobilized today while those of Bulgaria, Greece and Montenegro will reach a similar state of readiness within a day or two. Turkey by means of a strict censorship has kept her preparations quite a secret. She always however, has a strong force at the frontier, particularly in the vicinity of Adrianople.

"RUBE" BOEHLER HERE FOR VISIT

George "Rube" Boehler of the Detroit American League team, arrived in Newark this afternoon from Detroit. Boehler pitched yesterday his game by a score of 7 to 2. Louden, playing second base, had four errors, all of which were costly, and were responsible for the Chicago runs. Boehler allowed 14 hits, but the bingles were well scattered. Boehler has been ordered to report for the spring training trip next March and will go south with the Tigers. He will remain in Newark until Monday, leaving for his home at Lawrenceburg, Ind.

CHILDREN'S SKINS.

Every now and then a child's skin will break out in some kind of a rash and folks think it caught the trouble at school or somewhere away from home. Half the time the trouble is caused by the use of unwholesome yellow soaps for washing clothing. They leave the dirt in the goods and make the clothing harsh and irritating to the skin. No wonder the rash breaks out. Easy Task soap is clean, and white and sanitary and is best for children's clothes and yours, too. Get it at your grocer's.

ROYAL BAKING POWDER

ABSOLUTELY PURE

Cooking is a matter which concerns the whole family, and under modern methods and conveniences it is made so attractive the whole family is becoming interested, if not taking part in it.

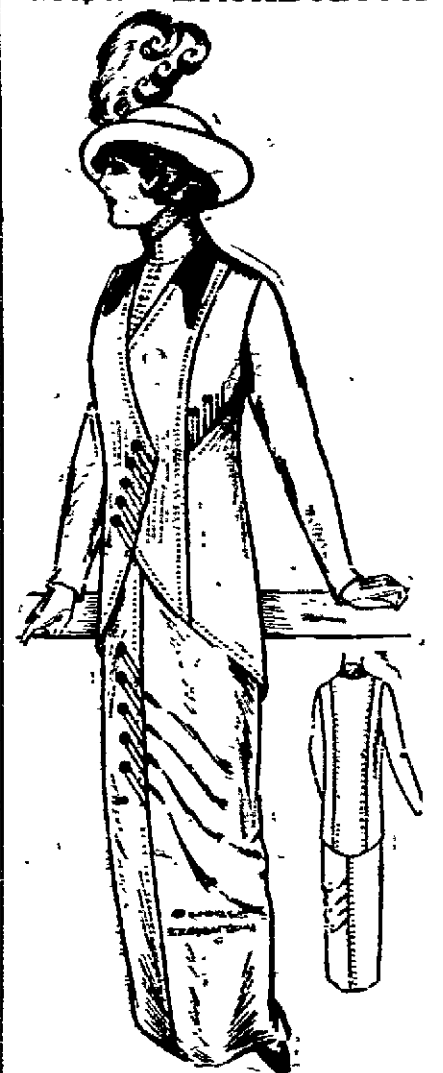

"These biscuits are delicious; this cake is excellent," says the father. "I made them," says the daughter, and both father and daughter beam with pleasure.

It is a crime, with our modern agencies, helps and facilities, to have soggy biscuit, or wooden cake, or leaden pastry.

Royal Baking Powder has made home baking a success, a pleasure and a profit, and the best cooking today the world over is done with its aid.

The spectacle attracted a good deal of attention, and an attempt was even made to photograph it.

Historic Blackguards

By Albert Pagson Torrance

Aaron Burr, the Man Who Would Be King

THE good people of Jersey in 1773 were horrified by a "fall from grace" on the part of one of their best loved, most promising youths. The lad was seventeen year-old Aaron Burr, son of the AARON BURR president of Princeton college, son and grandson of famous clergymen. He himself had been prepared for college at eleven and had been a Princeton graduate at sixteen. Then, after studying theology for a year, he calmly announced that he did not believe in religion of any sort. His private life had already proved him to be as lacking in morals as in Godliness.

Burr was only nineteen when the revolution began. He dropped the study of law and enlisted as a private soldier in the patriot army. But he tired of regular military life and went as a volunteer with Benedict Arnold on the Arnold-Montgomery expedition against Quebec. He quarreled with Arnold and joined Montgomery. Then he quarreled with Montgomery and went back to Arnold. He could "get on" with no commander. Yet so bravely did he fight in that unfortunate expedition that on his return he was made a major.

He joined George Washington's staff. He and the chief were about as well suited to each other as a rattlesnake and a war horse. Burr openly sneered at Washington's stiff discipline and lofty honor. Washington found Burr's evil-morals disgusting and was enraged at the youth's impudence. Then and there began a mutual and lifelong hatred. After six weeks, Burr left Washington's staff and joined Gen. Israel Putnam's. Though he and "Old Put" did not agree especially well with each other, Burr's courage and military talent raised him, in 1777, to the rank of Lieutenant colonel. And he fought gallantly until 1779. Then, sick of war and angry because he was not promoted faster, he left the army.

(He had long been one of Washington's opponents and had taken lively part in the Lee and Gates conspiracies against the chief. This and his quarrelsome nature may have been what barred him from promotion. For as long as Washington was in power Burr was made to feel the weight of his enmity. In later years Burr was mentioned for minister to France and for other high government posts. But President Washington always refused him such honors.)

Leaving the army, Burr became a lawyer and soon afterward moved to New York. He rose to the height of his profession, married a rich widow and speedily became a mighty power in New York politics. In 1798 he was attorney general, and in 1791 went to the United States senate. In 1800 he "fired" with Thomas Jefferson in the election for president. In order to win the presidency he deserted his political friends and curried favor with his party's foes. But in spite of these and other sharp tactics Jefferson was at length elected. Burr, by the custom of those days, became vice-president.

It was the summit of his career. Then came the gradual fall. Burr had a political quarrel with Alexander Hamilton, which ended, July 7, 1804, in a pistol duel at Weehawken, N. J. Burr killed Hamilton. It was a fair fight, and one man was probably no more to blame in the quarrel, than the other. Yet Hamilton had been so popular that Burr after the duel was politically crushed.

Smarting with anger at the public's disapproval, Burr went to the southwest and there plunged with feverish energy into a mysterious scheme whose exact nature is still doubtful. The general testimony is that he planned to conquer Mexico and to merge it with Texas, Louisiana, etc., into a great southwestern kingdom, empire or republic, with New Orleans for its capital and himself as its ruler. The scheme flourished for a time, but collapsed when the United States government denounced it and arrested Burr for treason. Burr was acquitted, but found it wise to leave America. He went to England, where he was maturing new plans when the British expelled him as "an embarrassing person." He was forbidden to return to his own country and for a time drifted about Europe, almost penniless.

But in 1812 he sailed for New York, disguised, and opened a law office on Nassau street. His genius quickly enabled him to win a new fortune. He added to his wealth by marrying a second widow, Mme. Jumel, who left him after he had squandered much of her fortune.

In the course of the next few years hard luck came again. Old, infirm, poor, shunned by his former friends, his family gone, Aaron Burr finally became an object of charity and died at Port Richmond, S. I., September 14, 1836.

Of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality, loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing the indigestion. Michael Hesselheimer, of Lincoln, Neb., had been sick over three years. But six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50c at F. D. Hall's.

FIRE PREVENTION DAY IN NEWARK NEXT WEDNESDAY

Governor Harmon has issued his proclamation setting aside Wednesday, Oct. 8, the anniversary of the Chicago fire, as Fire Prevention Day in Ohio. This gives the movement the highest official endorsement and its greatest opportunity. But the practical results in the various towns and cities depend upon the interest and co-operation of the people. Will you help?

Let us on next Wednesday make a thorough inspection of cellars and stores. Let us repair defective wiring and gas lighting fixtures. Let every piece of rubber hose attached to gas stoves be replaced by metal connection. Let us clean up the premises, removing papers and material that may cause a fire. Concerted action means results. Remember Fire Chief Bausch's last report declared that the Board of Trade "clean up day" was responsible for last year's low fire loss in Newark. Remember, too, the date, next Wednesday, Oct. 8.

SHOT BY SON-IN-LAW.

VAPOR TREATMENT FOR CATARRH COLDS AND COUGHS

The HYOMEI vapor treatment is especially recommended in stubborn cases of chronic catarrh of long standing, but remember that the inhaler should be used daily as usual. This treatment only takes a few minutes time before going to bed. Pour a scant teaspoonful of Booth's HYOMEI into a kitchen bowl of boiling water, cover head and bowl with towel and breathe for several minutes the vapor that arises. You will be surprised at the results of this treatment: it makes the head feel fine and clear. This method is also useful to break up the worst cold in the head over night.

A bottle of Booth's HYOMEI (pronounced High-o-mee) costs 50 cents at Evans' Drug Store and drug stores everywhere. Complete outfit which includes the little pocket inhaler \$1.00. No stomach dosing, just breathe; it is guaranteed to end catarrh and all diseases of the breathing organs. Booth's HYOMEI (pronounced High-o-mee) is Australian Eucalyptus compound with a Listerian Antiseptic that destroy catarrh germs and soothe and heal the sore membrane.

SOCIETY

One of the enjoyable events of the week was a miscellaneous shower given in honor of Miss Jennie Scott, a bride-elect, by Misses Beatrice and Bessie Vinning at their home in North Stanberry street on Thursday evening. Miss Scott was the recipient of many beautiful and useful presents. The evening was spent in cards and various other games.

Refreshments were served to the following: Messrs. and Mesdames William Davidson and son William, Wayne Welch, Clarence Jackson, Charles Vining, E. Radenbaugh, W. A. Vining, E. C. Scott of Chicago, Illinois, Misses Jennie Scott, Minnie Seftie, Florence Palmer, Helen Sawyer, Margareta, Roma and Lillie Muller, Edna McCann, Beatrice and Bessie Vinning, Messrs. Lang Muller, Earl Haines, Clinton Peppers, Arthur Keyes, Harry Scott, George Young, Troy Davis, Charles Eichorn.

On Tuesday evening Mrs. J. W. McLaughlin at her home in Allen street entertained the friends of her father, Mr. T. R. Anderson of Canton, Miss., formerly of this city, the event being in form of a surprise. Mr. Anderson was presented with a watch box as a remembrance of his Newark friends. The evening was spent in social conversation.

At a late hour a dainty lunch was served the following guests: Messrs. and Mesdames Edward Ryan, Frank Howard, John Powell, Charles Bagley, Mrs. George Snooks, Mrs. J. M. Vernon, Mildred Catlin, Florence Curtis and Miss Fannie Burton of Moreland, Ark., Mr. John Ryan, Mr. James Anderson, and the guest of honor, Mr. T. R. Anderson.

More than passing interest is being manifested locally in the forthcoming meeting of the State convention of Women's Federated clubs which will be held at Athens, October 14, 15, 16 and 17. This city will be represented by Mrs. A. H. Rickert of the Review club, Mrs. Eugene Ball of the Investigators, Mrs. F. M. Howard and Mrs. J. P. Glancy of the Coterie club, Mrs. Frank Johnson and Mrs. Fred Evans of the Progressive club. Other clubs have not selected their delegates, but it is probable all will have representatives in attendance.

Among the speakers will be Mrs. Frances Squire Potter of Chicago, who will give an address on "Musical Interpretation." Mr. Frank Alvah Parson, at the head of the New York School of Fine and Applied Arts will speak on "Arts in Daily Life."

Rev. and Mrs. J. A. Bennett were entertained at luncheon Thursday at the home of Rev. J. Morriston Thomas in North Fourth street.

Announcement is made of the marriage of Mr. W. H. Linard and Mrs. Thomas Smart to be solemnized in Bellaire on Thursday, October 10.

Miss Emma Williams of North Fifth street is entertaining this afternoon honoring Miss Dorothy Vail of Columbus, whose engagement to Mr. Roy James of Cleveland, formerly of Newark, has been announced.

Miss Minnie Brown entertained on Wednesday evening with a miscellaneous shower, honoring Miss Ruby Seward.

Miss Wame Rafferty entertained informally with a miscellaneous shower on Friday evening at her home in West Church street, complimenting

Miss Ruby Seward. The evening hours were spent with music and dancing and a dainty luncheon was served in the dining room. The table decorations were in white. The rooms were arranged with a profusion of garden flowers. A large heart had been suspended and when the bride-to-be caught the ribbons she was showered with the gifts.

Those presents were: Misses Ruby Seward, Minnie Brown, Mary Fuller, Sue Fuller, Mrs. Margaret Guthrie, Mrs. Heyman, and Miss Mary Richardson of Mulburg, Ky.

The Colonial Sewing Circle met with Mrs. Kemp in Bowers avenue, Friday afternoon. The afternoon was pleasantly spent in sewing and music, followed by dainty refreshments in the dining room. The next meeting will be with Mrs. Chesley in Pine street, Friday afternoon, October 13.

LAYMAN-HANOVER.

At eleven o'clock Saturday morning Mr. Evert A. Layman and Miss Goldie E. Hanover, young people from Johnston were married at the home of Dr. L. S. Sparks on North Fifth street. The ceremony was performed with only the minister's wife present. After a short wedding trip the happy couple will be at home to their friends in Johnston.

ALBANY-HORN.

On Friday afternoon at 4:30 o'clock at the parsonage of the Fifth Street Baptist church was solemnized the marriage of Mr. Lester Alberty and Miss Alice L. Horn. Rev. Joseph A. Bennett read the service.

The Mystic club was entertained at the home of Mrs. Lillian Heim Friday afternoon. Vocal and instrumental music was the feature. One new member, Mrs. Leah Cramer, was added to the club. At four o'clock dainty refreshments were served to the members. The next meeting will be held at the home of Mrs. Helen Huffman, 167 Eleventh street, October 18.

The Research club is this afternoon holding the first meeting of the year at the home of Miss Mabel Fugh in Cedar street. The following program has been arranged:

Roll call; Summer Exploits—The Club.

An Afternoon in Egypt and Palestine. "Age cannot wither her, nor custom stale her infinite variety."

A WOMAN'S ADVICE.

A woman was looking over the shoulder of a man who was writing this item, and just when he got to this point, and was writing the word "soapy," she said: "There's one great essential in a laundry soap. It must be a soap that will not rot the clothes or the fabrics. Some soaps will clean goods, but they rot them; others have sticky, yellow resin in them and stain the clothes yellow. Just you write that Easy Task soap saves half the work and saves all the clothes and drives away the dirt and keeps away the disease germs and is the best soap I ever found. And so her advice has been followed, for women know soap."

FOR THE WOMAN WHO THINKS AND FEELS.

Some women complain that they periodically suffer from dull and heavy feelings, or dizziness in the head, nervousness, pain and bearing-down feelings which should not occur to the normal healthy woman. But most every woman is subject to these pains at some time in her life, due to abnormal conditions in life, such as overwork, over-taxed strength, bad air, poor or improper food, wet feet, sluggish liver, etc. A regulator and female tonic made from native medicinal roots with pure glycerin, and without the use of alcohol, called

DR. PIERCE'S FAVORITE PRESCRIPTION,

has proven its value in thousands of cases, like the following:

Mrs. DOUGLAS MARTIN, of Auburn, Me., writes: "I thought I would write you in regard to what your medicine has done for me. I have used them for thirty years for female troubles and general weakness with the very best results, and they have saved me hundreds of dollars in doctors' bills. I buy the 'Favorite Prescription' and 'Golden Medical Discovery' and take them together. I never was disappointed in your remedies and take pleasure in recommending them to any suffering lady. I am now almost fifty years old; at forty-five I took your medicine, both kinds, and I passed that period very easily and left me fat and healthy. I feel like a young girl."

"If any lady cares to write me, I will gladly tell her more about the good work of your medicine."

Dr. PIERCE'S GREAT FAMILY DOCTOR BOOK, The People's Common Sense Medical Adviser, newly revised up-to-date edition of 1006 pages, answers hosts of delicate questions which every woman, single or married, ought to know. Sent free in cloth binding to any address on receipt of 31 one-cent stamps, to cover cost of wrapping and mailing only.

There Are Two Good Reason Why We Should Have Your Business.

FIRST—Our association is not established for profit but for the mutual benefit of its members. Its earnings after actual expenses are paid are divided pro-rata among its members.

SECOND—We protect our members savings by only loaning money on real estate after the property has been inspected by three members of our board of directors and has been approved by the Board. As a further precaution after the property has been appraised at its actual valuation only two-thirds of the amount is loaned to take care of any possible shrinkage.

The High school boys who play football have been given special dressing quarters in a part of the old bowling alley room.

Mr. F. E. Holloway of the Lyon party spent the first two weeks of his stay in Newark, in the association dormitories.

Prof. H. J. Dickerson of the High school has taken up his abode in the association (room 6) for the winter.

D. L. Rogers from the state office made the association a call a few days ago. He was on his way to Zanesville to visit the newly organized B. and O. association there.

The board of trustees met at the building on Tuesday evening for lunch and discussed the financial condition of the association. Reports of special committees showed the following facts: Increase of membership 25 per cent over that of two years ago. Attendance at building since removal of office and lobby to first floor increased 100 per cent. Educational, social, religious and physical activities up to standard. Decrease in running expenses 25 per cent. An income of 12 per cent on the investment from dormitories.

Gymnasium classes started Sept. 30. A new folder giving rates and classes of membership and other particulars of the work for the fall and winter is ready for distribution.

There will be a special meeting of the Board of Trustees on Tuesday evening, Oct. 8, 5:30 p. m. Every member should be present.

Harry Lucas, the fast little forward of the "Y" basketball team, is fast recovering from a long seige of typhoid fever. Harry spent his summer in northern Ohio at agency work.

Meyer Cohen of Cleveland is a new arrival at the building. He represents Collier's Weekly.

FIRST THINGS

The first attempt of the United States to secure a naval station in the West Indies was made 57 years ago today, when a treaty was signed between the United States and the Dominican republic, looking to the transfer of Samana Bay to Uncle Sam. When the project became known in Europe, the powers brought pressure to bear on the negro republic which resulted in the abandonment of the plan. The bay, situated at the northeastern extremity of San Domingo, is 35 miles long and affords a safe harbor for the biggest ships. About ten years later the United States department of state again sought to secure possession of the naval base, but was again frustrated. Mole St. Nicholas, on the coast of Haiti, was next sought, but again the European powers prevented the transfer. Having failed in a plan to purchase the Danish West Indies, the American state department finally negotiated a deal with Cuba, whereby Guantanamo Bay became a naval base for Uncle Sam in the West Indies.

MOTHERHOOD SUGGESTIONS

Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

TAXING COAT OFF POOR MAN'S BACK

Concrete Illustrations of What Protective Tariff Really Means.

CAUSE WORKERS TO THINK.

Iniquities of the Payne-Aldeich Act, Taft's "Best Law Ever," Strikingly Told in Figures.

Concrete examples of how a protective tariff operates are causing the workman, the "poor man," to do a lot of thinking nowadays. He is beginning to understand whether it is not about time to call a halt on the Republican practice of taxing the coat off his back and threatening him with the loss of his shirt and his socks if he does not submit.

All through the present tariff law, passed by a Republican congress and endorsed by a Republican president as THE BEST TARIFF BILL EVER PASSED, are to be found discriminations, the higher duty on the cheaper article, the lower duty on the dearer article, thus placing on the shoulders of those least able to bear it the greater burden of the protective system. Here are some illustrations:

The cheapest wool blankets bear a duty of 165.42 per cent; the dearest, 104.55 per cent.

Flannels, not more than 40 cents a pound, are taxed at 143.67 per cent; over 70 cents a pound, 78.37 per cent.

Wool plushes, cheapest, 141.75 per cent; dearest, 95.33 per cent.

Knit fabrics, cheapest, 141 per cent; dearest, 95.33 per cent.

Stockings, worth from \$1 to \$1.50 a dozen, 78.37 per cent; from \$2 to \$3, 59 per cent.

Hats and bonnets, worth not over \$5 a dozen, 62 per cent; over \$20 a dozen, 35 per cent.

Carpets, highest priced, 50 per cent; that used for mats and rugs, 120.86 per cent.

Women's gloves, unlined, 48 per cent; lined, 34 per cent; longest gloves, unlined, 42 per cent; lined, 29 per cent.

Men's gloves, worth less than \$3 a dozen, 66.28 per cent; costliest gloves, 14.45 per cent; leather, unlined, 44.58 per cent; lined, 29.50 per cent.

Buckles, cheapest, 77.45 per cent; dearest, 26.33 per cent.

Uncut diamonds bear a 10 per cent duty; imitation diamonds, 20 per cent.

The humble firecracker bears a 97.02 per cent duty, while elaborate fireworks bear but 70 per cent.

Matting, smaller and cheaper grades, 43 per cent; costlier, 24 per cent.

Watch movements, seven jewels, 66.02 per cent; 11 jewels, 40.41 per cent; 17 jewels, 34.45 per cent.

Underwear, cheapest, 56.90 per cent; dearest, 50 per cent.

Dress goods of wool, cheapest, 105.42 per cent; dearest, 94.13 per cent.

Velvets, cheapest, 105.22 per cent; dearest, 49.55 per cent.

Silk handkerchiefs, cheapest, 77.44 per cent; dearest, 50 per cent.

Scissors, worth 50 cents a dozen, 52.21 per cent; worth \$1.75 a dozen, 46 per cent.

Table knives, fancy grades, 57.40 per cent; bone handled, 69.43 per cent.

Butcher knives, best grades, 52.10 per cent; cheapest grades, 55.56 per cent.

Forks, smallest, \$1.29 per cent, longest, 36.51 per cent.

Shotguns, worth from \$5 to \$10, 47.67 per cent; worth over \$10, 45.46 per cent.

These are only a part of the discriminations, gleaned from a swift conning of some of the schedules. Reduced to simplest terms, they mean that the poor man is taxed higher than the rich man.

TRAVELING MEN FOR WOODROW WILSON.

He Has a Record of Making Good His Promises to Voters.

The traveling man is a live wire. Traveling men are decided factors in molding public sentiment.

No other class of men come in more forceful contact with the actual condition of the high cost of living without a corresponding increase in salaries.

The traveling men need Governor Wilson for their president because his record is that of making good promises and then honestly fulfilling them. Governor Wilson in his candidacy needs the help of every live traveling man.

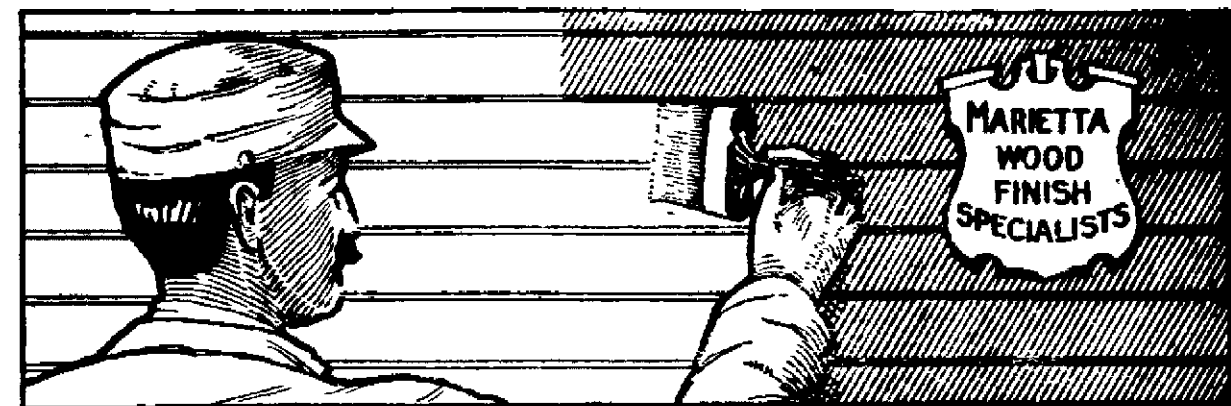

Every genuine progressive commercial man who is willing to help Governor Wilson's candidacy is urged to send his name immediately to the Commercial Men's Wilson committee, care Organization bureau, Democratic National headquarters, Fifth Avenue building, New York.

President Taft congratulates the Republicans of Maine on what Chairman Hiles describes as "an old fashioned victory." Another such and Vermont and Rhode Island would go Democratic in November.

Those who know and feel for Chairman Hiles say he really isn't to blame for the Republican presidential candidate's announcement that he "is out of politics."

Ask the best painter you know of about AURORA MIXED PAINT.

If he doesn't know from experience, get him to try it.

The amount you save on the job will justify the experiment. He won't need to paint the whole house to find out. He can tell by the FEEL of the paint, as it spreads on, that he is working with EXCEPTIONALLY good paint.

AURORA PAINT is practical. It is such a paint as the painter would mix for himself if he had our facilities.

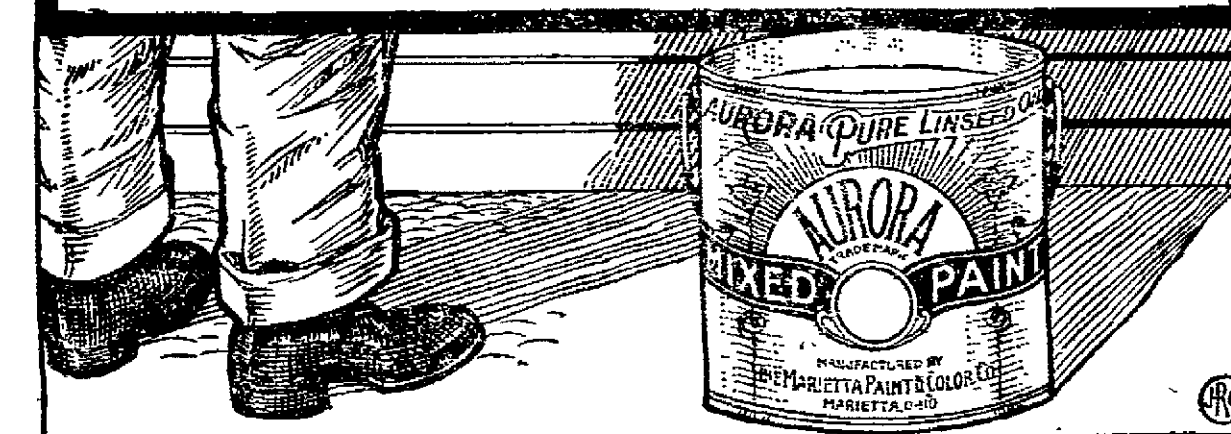

It is a pure lead and linseed oil paint strengthened—not cheapened—by the correct proportion of inert pigments to give it durability. It is economical, not because of price, but because of the surface it covers and the length of its life.

The Growth of the City

By CHARLES STELZLE

THE plan that big cities are bad for the people is not a new one. Aristotle limited the ideal city to 10,000 inhabitants. Plutarch and Cicero sought by persuasion to turn back the current of emigration which came from the country. Justinian tried to stop it by legal measures. The Tudors and the Stuarts issued proclamations forbidding the erection of new houses in London, enjoining the country people to return to the soil. But persuasion and legislation were both in vain. The city is developed in

spite of the teaching of philosophers and the edicts of rulers because the growth of populations and their manner of making a living are determined by certain forces over which neither kings nor philosophers have ultimate control.

The census returns just completed give some very interesting figures with reference to the growth of the city in the United States during the years from 1900 to 1910. The population as a whole increased 21 per cent, but the cities of 25,000 and over increased 55 per cent, whereas the rural population increased only about 11 per cent. Nearly 50 per cent of the entire population lives in cities of 2,500 and over. About one-tenth of the population resides in the cities of New York, Chicago and Philadelphia. Twenty-two per cent lives in cities of 100,000 and over.

Like great whirlpools, these centers are drawing to themselves those elements which constitute the social unrest. In the cities are found practically every great social problem that one finds anywhere else, only much more intensified. Negroes constitute one-fourth or more of the total population in each of twenty-seven principal cities, and in four of them the proportion is more than half. Of foreign born whites in the United States as a whole there are 14.5 per cent. In the cities of 25,000 and over there are 26.2 per cent. In thirteen principal cities more than 40 per cent of the population is foreign born. In each of fifteen cities having 250,000 population or more the percentage of foreign born and the children of foreign born represent more than half the population, and in eleven of them it is more than two-thirds.

Beware of Ointments for Catarrh that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used, except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free. Sold by druggists. Price, 75c per bottle. TABERNACLE

(Continued from Page One.) would rather go off and see some questionable actress and look at a leg show than to go to gospel meeting. Why? Because their lives are absorbed in sensuality and their higher natures are starved.

Produced a Lethargy.

The evangelist told of a case well known in medical annals where a woman had by mistake taken a very strong opiate. Her husband called a physician who gave her the necessary remedies, but told the husband that they would have to keep the woman walking all night long. If she was permitted to fall asleep, she would never be able to wake up.

"So it is with sin. Awake, thou that sleepest and arise from the dead." Are there those of you who have so long remained from Christ and the higher life that you are satisfied to remain where you are. Are you content with your sins, realizing that your condition is the most dangerous and the most desperate? The unpardonable sin is the one that doesn't want to be pardoned.

"The wages of sin is death to hope and progress. Show me a single phrase in God's word, rightly interpreted that gives a ray of hope to the soul that wilfully rejects Christ. You can pass out of this building and go to some haunt of sin and shame, but let this go with you, 'You can't get away from the blighting, damning results of sin.' If you haven't Jesus, the Word of God says that you are eternally lost."

In discussing the inner meaning of Poe's poetical masterpiece, "The

how he staggers beneath the load—see the soldiers as they drive the nails into his hands and feet, and there as he hangs on the cross, the best friend man ever had. See the soldiers thrust the spear into his side, and that from the opening there flows the water of his blood. Hear him as he said, with that last gasp, "It is finished." What is finished? The great plan of human redemption. When the great High Priest, Jesus Christ, went into the holies of holies to make atonement for the sins of the people, the salvation of mankind was made possible.

"No matter what you are, who you are, or where you are, if tonight you are willing to turn your back on the old life and receive Jesus as your personal Lord and Savior, God, for Christ's sake, will blot out your sins and they will stand out on the book of life no more.

"You and I are not saved on account of what we do for Christ. We are saved because of what Christ has already done for us.

"The wages of sin is death. Perhaps after your name the word lost is written on God's judgment book, but the gift of God is eternal life through Jesus Christ, our Lord. Accept and confess him and do it now, friends, and after your name will be written the single word, 'Saved.'"

And then, while heads were bowed in silent prayer, Dr. Lyon gave the invitation that resulted in such an excellent conversion of the souls of wayward Newarkites. From all parts of the building came men and women whose hearts and souls had been stirred by the convicting message sent them by Dr. Lyon, while the pastors and Christian workers in the audience lost no time in engaging in personal work with those who had expressed a desire to confess Christ, but who lacked the moral courage to do so.

In the brief after-meeting, Dr. Lyon gave some words of excellent advice to the new Christians, advising them to go out and bring others to Christ, in that they might be strengthened in their faith. A systematic record is kept of the converts, with their church preferences and the committees in charge of new converts will have as their duty the maintaining of spiritual strength as far as their human frailty will permit.

In his sermon tonight on "A Wanderer's Return," Dr. Lyon will present an address that has been commented upon widely throughout the country and one that has been a vital force in his elevation to the front rank that he now holds as a popular though efficient revivalist. Genial Fred Hazen is arranging to have the tabernacle well heated for the service, and preparations are being made for the reception of fully four thousand people. The counter-attractions of the past week have proven rather disastrous to the tabernacle crowds, in point of attendance, but from now on it is evident that there will be vast interest in Dr. Lyon's work and much good will be accomplished.

Birthday of Jonathan Edwards, Who Preached a Literal Hell.

In these days when a future abode of fire and brimstone has become a matter for jest and jeer, and the "consolation of hell" for our enemies has lost its appeal, it is interesting to compare a sermon of Jonathan Edwards with the discourse you will hear in any pulpit tomorrow. The Rev. Jonathan was one of the most distinguished theologians of the 18th century. Today is the 209th anniversary of his birth at East Windsor, Conn. He was a graduate and tutor at Yale before he entered the ministry as pastor of a church at Northampton, Mass. His books, among them "Original Sin" and "Freedom of the Will," gave him a reputation abroad as well as in the American colonies. He died in 1758, shortly after being appointed president of the College of New Jersey, now Princeton University. The following is an extract from one of his famous sermons:

"I entreat you to consider attentively how great and awful a thing eternity is. Do but consider what it is to suffer extreme torment forever; and ever; to suffer it day and night, from one day to another, from one year to another, from one age to another, from one thousand years to another, and so, adding age to age, and thousands to thousands, in pain, in wailing and lamenting, groaning and shrieking and gnashing of your teeth; with your soul's full of dreadful grief and amazement, with your bodies and every member full of racking torture, without any possibility of getting ease; without any possibility of moving; God to pity by your cries; without any possibility of hiding yourself from Him; without any possibility of diverting your thoughts from your pain; without any possibility of obtaining any mitigation or help or change for the better any way. Do but consider how dreadful despair will be in such torment. How dismal it will be, when you are under these racking torments, to know assuredly that you never, never shall be delivered from them; to have no hope; when you shall wish that you might be turned into nothing, but shall have no hope of it; when you shall wish that you might be turned into a toad or a serpent, but shall have no hope of it; when you would rejoice if you might have any relief, after you shall have endured these torments millions of ages, but shall have no hope of it; when after you shall have worn out the age of the sun, moon and stars in your dolorous groans and lamentations, without any rest day or night, or one minute's ease, yet you shall have no hope of ever being delivered; when you shall have worn out a million more such ages, yet shall have no hope, but shall know that you are not one whit nearer to the end of your torments; but that still there are the same groans, the same shrieks, the same doleful cries, incessantly to be made by you, and that the smoke of your torment shall still ascend up, forever and ever; and that your souls, which shall have been agitated by the wrath of God all this while, yet will still exist to bear more wrath; your

bodies, which shall have been burning and roasting all this while in these glowing flames, yet shall not have been consumed, but will remain to roast through an eternity yet, which shall not have been at all shortened by what shall have been past."

To this hereafter, so luridly described, the Rev. Jonathan consigned the bodies and souls of by far the greater part of humanity, and declared that only an elect few could escape the wrath of a vengeful God.

FRIDAY AFTERNOON.

One of the largest audiences of the campaign greeted Dr. Lyon yesterday, numbering, conservatively estimated, about a thousand persons. There was a liberal attendance of men, which is in itself a mark of increased interest in the meetings, and the sermon by Dr. Lyon was a splendid discussion of the manner of proper preparation for service.

The preliminary song service included a splendid solo by Mrs. Grace Powell, "To the Secret Place I Go," and a solo obligato by the same charming singer, "We Must Be Born Again." The audience joined zealously in singing the old familiar hymns and mastered an entirely new one which will be made a feature of the Newark campaign. "I'll Go, Send Me."

Dr. Lyon's sermon was taken from the sixth chapter of Isaiah and outlined factors in the life of Isaiah that made of him a mighty power for good. "A great trouble in this day is not that the people don't believe in Christ as the Son of God, but that Jesus is not the son of their God. Like so many of the present day, Isaiah thought that money was able to do everything, and there, amid the luxury of that eastern court he made a god of ambition.

"But all this changed, and Isaiah let the God Jehovah come into his life. The Jehovah of the Old Testament is the Jesus of the new.

"What was the result? He cried, 'Woe is me. I am undone.' This was not simply a dream. In our matter-of-fact, materialistic, pork-and-beans existence we are apt to sink in the mud and think that the things that we can't see and can't feel don't real. Friends, the things that live on this earth have been dreamed, Abraham, Jacob, Joseph, Moses, Ezekiel, Elijah, Daniel, Peter on the housetops, Saul of Tarsus—these and many others were all dreamers.

"Originally a minister and a minstrel were very close together. My friends, unless you are a dreamer, unless your imagination is going out from yourself, unless you have been dreaming of a better life than the one you are seeing in your home, factory or store, then the world is not real to you.

"If you are to be a power among men, you must first of all know God, and you can know God only through Christ, his son.

"There are a great many people who know about the Bible, who do not know the Bible. There are many who are worshipping the crucified Christ who don't know that he died for our sins and rose again for our justification. Friends, Easter Sunday is better than Good Friday."

"The greatest thing in the gospel is that personal, vital relationship with the living, ascended Christ.

"You have to weep yourself before you can make anybody else weep. Many people have joined the church, have gone through the usual ceremonies, but they have never entered into relationship with Jesus. The result of this is going to be their ultimate conviction of sin."

Dr. Lyon's personal experience was that there was no consciousness of sin when he became a Christian; it was a matter of growth. Today he has a thousand times greater knowledge of sin than then. "We should start the other way, however," he believes. "Then there will come to our minds the realization of our faults and our shortcomings."

The third phase of the preparation for service is the confession of sins. A woman at a recent meeting approached Dr. Lyon and told of her mental unrest since she had been convinced that she had been sinful in her method of living. "There are too many people that grow in grace that don't grow in knowledge. If we grow in the knowledge of Christ it means more to us to be a Christian."

Dr. Lyon emphasized his argument by relating the history of a young sketch artist who took some of his drawings to a city art gallery and compared them with masterpieces. His egotism was lost and he realized that his work was a failure. "That man was never nearer being a great man than then," commented the speaker.

"Then, there comes a realization of cleansing," said Dr. Lyon. "If one is to become an effective Christian worker, he must set consciousness in his heart, not only of confession, but of forgiveness of sin."

"The idea of the scripture when it refers to lips being touched by the tongues from the coals of the altar, is not for eloquence, oratory, enthusiasm or diplomacy in speech. It was a sign that the life was cleansed from sin. 'Thy iniquities are taken away and thy sins purged,' says the Word.

"Then it was that Isaiah heard the voice of God. God had been speaking to him all the time, urging him to go forth in the service of Jehovah, but his ears had been deafened by the distractions and allurements of the world."

The speaker told of Jean Ingelow's failure to hear the song of a nightingale, because he had stuffed his ears with cotton to keep out the cold night air. "Just so, the way of worldliness is stopping your ears so that they have not been able to hear the voice of God."

In conclusion, Dr. Lyon reviewed, "There must be, then, if we are to have proper preparation for God's service, first, the vision of God; second, the realization of God; third, confession of sin; fourth, the assurance of pardon; and fifth, the call to service. It was hard work that God has for Isaiah to do—to go forth and give his life as a martyr in Jehovah's cause, but doubtless to his dying day it was that vision that he had received from the Lord that was his great incentive to victory."

"CASCARETS" BEST BOWEL CLEANSER

No Biliousness, Headache, Sick, Sour Stomach, Indigestion, Constipation, Tongue or Constipation.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which soured and ferments like garbage in a will barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10 cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

COUNTY FAIR

(Continued from Page 1.)

Stillwell, local automobile driver, and Mrs. Freeman, wife of the aviator, were also taken on short flights over the fair grounds and surrounding country. Mr. Freeman found the atmospheric conditions very satisfactory for work yesterday and performed some startling feats with his machine, dipping and looping in a manner that was simply inspiring.

The Races.

Sixteen heats, most of them hotly contested, entertained the thousands of visitors at the closing day of the county fair Friday and the program for the afternoon was pronounced by all the best of the week.

The sixteen heats were divided between the five different events. One heat of the twenty-four trot was carried over from Thursday and darkness made it impossible to run the last heat of the twenty-seven trot, the officials making the awards of money on the records made in the first three heats. In this race Harry L. the Coshocton horse, was drawn after the third heat, so he was not considered in the award of the money. The thirteen pace only had four heats, with two horses tied for best honors in the race. Hal Nuthurst and Long Shot each had two heats and each finished second twice. The first and second money was equally divided between these two horses, while third money was given to Lady Gray, who finished third in each heat.

The twenty-four trot, held over from Thursday for the last heat, was the most hotly contested race of the program. Fountina B. and Donnie B., both black mares, came out for the final heat, with two to their credit. Naturally they were the favorites for the last mile, but both were compelled to give way to Strong Baron. Donnie B. was a close second and Fountina B. third.

The racing association decided that all races must be decided in the first five heats, so first money was awarded to Fountina B., and second money to Strong Baron. Although Donnie B. had two heats she finished well behind the field in the first two heats, getting fourth and sixth place, respectively, so she was shoved into third place.

In the 2:25 pace Hurry On had an easy time, winning in straight heats. Col. Johnson and Mabel H. contested for second honors, but the former was second in the first two heats and got second money.

Margaret Dorf and Irene S. had an even chance for first honors after the fourth heat, but Margaret Dorf came in strong in the fifth heat and captured the coveted prize.

The 2:15 pace was finished in four heats, sundown finding Long Shot and Nuthurst with honors even. They divided first and second money, as stated.

LODGE NEWS

I. O. O. F.

All members of Newark Lodge are requested to be present Monday evening, Oct. 7. The initiatory degree will be conferred.

Woman's Relief Corps.

At the regular meeting in G. A. R. hall, the various committees reported progress in their work. Several applications have asked for admission to the ranks of this order and the necessary papers will soon be issued. The quilting committee will resume the weekly sewings for the remainder of the year.

A favor comes to this Relief Corps from Col. A. H. Heiser, who kindly donated a beautiful collection of fine glassware for the banquet tables. The ladies feel very grateful for this donation of clear, sparkling crystal pieces which will beautify the appearance of the tables.

The annual inspection will occur on October 14, and will be conducted by Department J. V. President, Sadie D. Chapman. This lady will prove to be a favorite in Relief Corps work and to the soldiers and the general public during her sojourn in our city. A campfire will be held in the evening in honor of this estimable, enthusiastic and patriotic officer of the Department of Ohio, to which the public is invited.

A box of literature will be sent to the soldiers at Sandusky Home, and the ladies will please answer this appeal and bring magazines or books to the next regular meeting on Wednesday, October 11th, for the Home and Employment committee will freight this consignment in the name of No. 45, Lemont Woman's Relief Corps. Many hours of pleasure will be derived from reading good literature by our comrades up at Sandusky Home. Those soldiers will bless the kind thoughtfulness of the corps members.

Y. W. C. A.

What are you doing for the Y. W. C. A.? Are you helping to make it a reality? Are you talking about it with your friends, and awakening their interest?

The girls are trusting you and are waiting for your help—they will know that if you realize their need, you will gladly give them your assistance and support—and they don't need it every girl in Newark will be helped by a Y. W. C. A. because it will benefit the city itself. If you want to "boost Newark" give Newark's daughters their Y. W. C. A. The young women in your city are as progressive as the young men, and only ask for the chance to develop along right lines—lend them your help at the start, and they will promise to do the rest.

"COOKEY" JONES CAUSES TROUBLE FROM THE CLOUDS

The aeroplane flight of "Cookey" Jones, the mayor of Buckeye Lake, at the fair yesterday, was the cause of an incident amusing to many, but most disturbing to one.

Before the mayor took his seat in the machine, Ben B. Jones, candidate for county commissioner, handed him several hundred campaign cards, bearing the name and picture of Ben B. Jones, and instructed him to drop the cards from the aeroplane during the course of the flight.

Soaring above the fair grounds, "Cookey" turned loose the cards, which fluttered slowly to all parts of the enclosure, one of them being picked up by the mother of the candidate.

"Goodness" cried Mrs. Jones. "Ben my son, must be up there," and she strained her eyes heavenward in an effort to ascertain if her son was really braving the perils of the upper air.

Friends hastened to assure the distraught mother that it was her son's enterprise and not his person that was responsible for the shower of campaign literature, this intelligence doing much to calm the emotions of the perturbed mother, and to convince her that it was only in name that her son trusted himself to the treacherous currents in company with the aviator.

CURE YOUR KIDNEYS.

Do Not Endanger Life When a Newark Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a tested remedy is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now before Bright's disease sets in. Read this Newark testimony: A. J. Andrews, 27 1-2 W. Main Street, Newark, Ohio, says: "Doan's Kidney Pills are an excellent Kidney remedy and do all they are advertised to do. My kidneys had been in bad shape and the secretions were beyond control. I also had back aches. Seeing Doan's Kidney Pills advertised, I obtained a supply at A. F. Crayton & Co.'s drug store. They stopped the pain and regulated my kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

HAD ECZEMA TWENTY YEARS

And Was Cured Completely in Two Weeks Time by the Use of Goodhair Soap.

"Gentlemen: I have been sick, I may say, for the last 20 years. First to H.D. Springs, St. Paul, Minn., and Indiana, and was benefited while there but when I came home it was the same old story. My God, I would lie awake at night and scratch until I was weak and exhausted. Then I might sleep for an hour, but my sleep would only be more torture when I would wake up. My itching seems to be the worst on my head, face, arms and legs. Sometimes the burning sensation is enough to drive me crazy. There are no sores of any kind on me, only a dry scaly skin, or it is raw and very tender. I have spent a fortune in medicine, have taken remedies by the dozen; would use a box of— I have used a bottle of I could not say how many bottles of— and—

Medicine, but I must say I HAVE DERIVED MORE BENEFIT FROM ANY OTHER I HAVE TAKEN IN SUCH A SHORT TIME. I CAN GO TO BED NOW, AND STAY UNTIL THE MORNING—SOMETHING I HAVE NOT DONE IN TEN OR FIFTEEN YEARS.

I shall never forget the kindness of Dr. Hughes of Garrett, Ind. He has done everything in his power for me. Everything he has said or done has held me to do, and now through his kindness, AND YOUR WONDERFUL SOAP, I hope to spend a few happy and peaceful days on the ocean shore. Hoping you will send me a box of Goodhair Soap at your convenience, I remain, with many thanks for your trouble.

MANY GUESSES ON "FAVORITE" RANGE AT COUNTY FAIR

At the close of the fair Friday evening, more than 10,000 guesses on the number of nails contained in a small glass jar, were registered at the booth of the Newark Hardware company. The company offers a fine "Favorite" range to the person guessing the nearest correct number of nails in the jar.

The nails will be counted by a committee composed of J. L. Worth, Daniel Ganev and W. B. Patton. Saturday, October 12, and the winner will be announced at that time. The guesses registered at the booth ranged from 42 to 100,957.

FIXING UP NEW COUNCIL CHAMBER

All the furniture and fixtures from the council chamber in the old city building have been removed to the assembly room of the Trust building and carpenters are now at work placing the railing in position and building the platform for the president's and clerk's desks.

The desks for the councilmen will be placed in position Saturday or Monday and everything will be in readiness for the meeting in the new council chamber Monday night.

The new room is spacious and convenient and when the desks and other fixtures are in position the meeting place will be highly pleasing to the officials.

OCTOBER 5

IF THIS IS YOUR BIRTHDAY

Attend to your own affairs, as they will need all your thought and care. Journeys and social excitement should be avoided in the immediate future, and instead an interest in more important affairs should be cultivated.

Those born today will be restless, pleasure-loving and not fond of work. They will be liked and can succeed at almost anything, if they are interested enough to try.

Good fortune and pleasant company will be yours this year. Consider well the influences of your friends and hold fast to the better ones.

Those born today will have the qualities which make for success financially and in public life. They will be attractive and, though unsteady in youth, will see their folly and turn their minds to more important things.

A Newspaper Man Writes an Open Letter to Dr. Hartman

I give below an extract from a letter written me by the business manager of one of the leading newspapers of this country. He said in part:

"I was very much interested in your article about the use of alcohol in patient medicines. As you know, your ad. has been running in my paper more or less for the last twenty years. I have been frequently criticised for advertising your remedy on the ground that it contained alcohol and was therefore harmful.

"I am not a doctor myself and do not profess to know anything about such subjects. But I wish I had been supplied with the information contained in your articles years ago. Your article exactly meets all the objections that I have had to contend with.

"That alcohol is a useful drug and is the active principle of wine, beer, cider and other beverages is to me a new thought. That it is a useful remedy and assists the other ingredients in making a cure, I cannot doubt after reading your article.

"I think so much of your article that I am going to have a reprint of it made and strike off thousands of them, which I shall mail to objectors as they may arise in the future.

"Your articles convey a great deal of information to the public. I think the newspapers can well afford to publish them gratis, for the articles you have been furnishing me lately constitute some of the best things that occur in my paper. I wish you continued success in your magnificent work."

My Dear Sir:—I appreciate your letter. It is not the only one of the kind I have received.

I know that Peruna has been greatly misrepresented and misunderstood. I have not had time heretofore to answer these objections. I have been too busy in my many enterprises. My great farm, with its various departments, has so thoroughly engaged my enthusiasm and attention in times past that I could give little heed to critics.

But I have taken up the matter now. My farm is in the hands of intelligent overseers and my other business is all organized in such a way that I can give my attention to these matters. I am proposing now to explain to the public all there is to say about Peruna, knowing full well as soon as the public understands it that the malicious things said about Peruna will be quickly forgotten.

PATHFINDERS PASSED THROUGH NEWARK TODAY

J. A. Campbell and G. H. Squires, pathfinders for the Ohio Reliability run, passed through Newark this morning, blazing the trail for the big party of motorcycle riders who will visit Newark on October 12 and 13.

Both men were riding 7 horse power Yale machines which were plastered with mud, indicating that the riders found some heavy roads on the last few hours of their tour.

Mr. Campbell, who is state commissioner for Ohio, of the Federation of American Motor Cyclists, made arrangements for the storage of the machines at the Auditorium garage on the night of Oct. 12. He appointed E. R. Francis, local commissioner and W. B. Kinney as official checkers for Newark.

The riders will check in and out at the northeast corner of the square presenting their credentials to the checkers.
